**Conference aims and objectives:**

The Conference aims to present scientific achievements and exchange views on various economic development problems and challenges. It is intended for student research teams, PhD students and academics who conduct research into economic and social sciences. The conference is an ideal opportunity to confront theory with business practice; it is an opportunity for students to extend their knowledge acquired during studies, improve research excellence and establish research cooperation.

**The Conference subject matter includes:**

- R & D and business development
- The impact of innovation on the competitiveness of enterprises
- Changing in consumer behavior as a challenge for entrepreneurs
- financial management of modern business organizations
- Effective business management
- Ecological problems of socio-economic development
- The importance of social economy entities in the market economy
- Talent management
- Young generation
